RE: Application for DPS Accreditation under Title 37, Texas Administrative Code, Chapter 28,
Subchapter H

Dear Mr. Steve Harris:

With some exceptions, Code of Criminal Procedure, Article 38.35, requires Department of Public Safety (DPS) accreditation of a crime laboratory or other entity as a predicate to the admission of evidence or testimony resulting from forensic analysis of physical evidence in a criminal case.

As the designee of the Director of the Department of Public Safety, I have considered your application based on your national accreditation from SAMHSA and grant Full DPS Accreditation to the One Source Toxicology.

The term of SAMHSA accreditation is from 10/1/1996 to 10/1/2006 unless they have extended their accreditation as part of a routine renewal process, for the following disciplines:

Toxicology

The following limitations are imposed on these accredited disciplines: Toxicology (Urine Drug Testing).

The term of DPS accreditation is from 2/13/2006 until such time that the accreditation from SAMHSA is no longer current.

DPS Accreditation is contingent upon compliance with Title 37, Texas Administrative Code, Chapter 28, Subchapter H, including requirements of reporting correspondence, reports or communication between the laboratory and the accrediting body. DPS accreditation will be automatically rescinded at the same date and time as SAMHSA withdraws your laboratory accreditation.

Yours Truly,

J. R. Urbanovsky
Director, Crime Laboratory Service
CC: SAMHSA
